Senator Catherine Osten, Senator Paul Formica, and Representative Toni Walker,

I am a former ECA student originally from Wallingford, where my parents still live. I currently work as a video producer and editor based in New York City. My experiences at ECA, particularly the screenwriting classes I took there, started me on the way towards the career I'm currently happy to be working in, and I hope to see it receive sufficient funding to continue to provide those sorts of formative experiences for other students.

Sincerely,  
Matt Hoffman
